LONG TERM PAVEMENT PERFORMANCE PROGRAM DIRECTIVE

For The Technical Direction Of The LTPP Program

Program Area:	**Monitoring**	**Directive Number:**	**P-20**
Date:	**May 15, 1998**	**Supersedes:**	**n/a**
Subject:	**Suspension of Profile Data Collection at WIM Sites**		

Large quantities of profile data have been collected at Weigh-in-Motion (WIM) sites to study the effects of roughness changes on WIM scale measurements due to vehicle dynamic motion. However, to date, no preliminary analyses have been conducted to assess their suitability in achieving that objective. Consequently, until such assessment is made, it has been decided that:

Effective immediately, RCOCs shall suspend all profile data collection activities at WIM sites.

Questions concerning this directive should be addressed to Antonio Nieves of the FHWA LTPP Division Office at (703) 285-2526.
