Attached is LTPP Directive I-105: Deletion of Data for Rejected Sections from the IMS. The directive addresses the procedures to be used in deleting and archiving data associated with rejected sections from the IMS. This is the fourth directive that addresses the issue of rejected sections and removal of all associated records from the IMS. Directives I-91, I-75, and I-69 addressed this topic for different sets of sections in 2001, 2000, and 1999 respectively. Please ensure that all personnel involved with the IMS are aware of this new directive.

Should you have any questions or would like to discuss this directive, please do not hesitate to contact me at 202-493-3153.

# LONG TERM PAVEMENT PERFORMANCE PROGRAM DIRECTIVE

*For the Technical Direction of the LTPP Program*

Program Area: IMS Directive Number: I-105  
Date: January 8, 2003 Supersedes: NA  
Subject: **Deletion of Data for Rejected Sections from the IMS (LTPP Database)**

---

The following test sections have STATUS = R in the **EXPERIMENT\_SECTION** table and have been accepted as a "rejected" sections. Insufficient information has been collected to make these sections useful for analysis. The IMS data for these sections shall be deleted and archived under the terms of IMS Directive I-58: Deletion of Obsolete or Rejected LTPP Data.

The rejected sections whose data are to be removed from the IMS are:

27 1003	27 1004	27 1017	27 1020	27 2018	27 2023
27 3005	27 3007	27 3009	27 3010	27 3012	

The regions are to perform the deletions using the "System-Wide Section Maintenance" function prior to the June 2003 upload. Spot checks should be performed to confirm data removal was successful. All data associated with these sections are to be removed from the database by the June 2003 upload.
