

LONG TERM PAVEMENT PERFORMANCE PROGRAM DIRECTIVE

For the Technical Direction of the LTPP Program

Program Area: IMS **Directive Number:** I-75
Date: May 10, 2000 **Supersedes:** NA
Subject: Second Deletion of "EXPERIMENT_SECTION" Data
from the LTPP IMS

This directive implements the procedures for handling the second deletion of EXPERIMENT_SECTION data from the LTPP database.

The project and sections with STATUS=R in the **EXPERIMENT_SECTION** table which was current as of February 4, 2000 are defined to be "rejected". Insufficient basic information has been collected to make these sections eligible for any type of analysis. The IMS data for these sections should be deleted under the terms of IMS Directive I-58: Deletion of Obsolete or Rejected LTPP Data.

The project /sections are:

05 0900	05 0901	05 0902	05 0903	05 0960
12 4102	31 0159	48 A350	56 A362	

The regions are to make the deletions using the "System-Wide Section Maintenance" function prior to the May 2000 upload. The TSSC will delete this section data from the release database. All data associated with these sections is to be removed from the IMS as of the May 2000 upload.

A copy of all data collection materials which support entry of data into the IMS will be forwarded to the TSSC for storage by June 30, 2000. The originals of all material pertaining to these sections will be consolidated within each region for any further required actions by June 30, 2000.

Prepared by: TSSC
