Job Description: Modem Locked up  
Installation of timer

**Work Completed:**

- Arrived on site and inspected status of modem, it was locked up.
- Reset power to the modem and called Phuoc Le to initiate communication and download data as required. After Le finished I started installation and programming of timer.
- The timer was tested after programming and it worked fine.
- **Received call from Maryanne on July 6 saying that the modem locked up again.**
- **I went back to the site and found modem locked up. Tested timer again and it worked fine.**
- **I called Andrew to talk about the time to be set in the timer and we agreed to be set at 00:55 OFF and 00:56 ON to match Saskatoon local time.**
- **A new modem will be sent to be installed.**
