The diagram is a geological map of Cell 406, oriented horizontally. It features several labeled geological units and structures:

- Geological Units:** Labeled units include P-2, P-3, P-4, and P-5, which are represented by different patterns and colors.
- Faults:** Two major faults are highlighted in red and labeled "Fault 305" and "Fault 308". Other faults are indicated by dashed lines and labeled "Fault 309", "Fault 310", and "Fault 311".
- Structural Features:** The map shows various structural features, including "Sunkens" (sinkholes), "Stress", and "Strain". Specific areas are labeled "P-2 Stress", "P-3 Stress", "P-4 Stress", and "P-5 Stress".
- Topography:** Topographic contours are shown as solid black lines, with elevations ranging from 100 to 150 feet.
- Grid System:** A grid system is overlaid on the map, with horizontal coordinates labeled "134+00", "135+00", and "136+00", and vertical coordinates labeled "137+00", "138+00", "139+00", and "140+00".
